* "rest days + arrival and departure days" are included in the calculations

** If match arbiters are only engaged for a portion of the tournament, their compensation is determined based on the specific duration of their involvement.

This scenario is exemplified by events such as the World Cup, where their payment is calculated exclusively for the days they are actively present and officiating matches.

Payment is in Euro

Proposal ARB about travelling:

* EVE-tournaments: always economy class - for CA, DCA, PO: up to 700 Euro from same continent or 1.300 Euro from other continent (if within continent the distance is more than 2.000 km, than it's same value like other continent)

* EVE-tournaments: for other arbiters: up to 500 Euro from same continent or 1.000 Euro from other continent (if within continent the distance is more than 2.000 km, than it's same value like other continent)

* for local arbiter that doesn't stay in hotel covered by organizer: travelling costs have to be covered for 100% (by public transportation)

* once an arbiter is appointed, he has to get the ticket within 10 days

* organizer provides the transport of all arbiters from closest international airport to the hotel (arrival) and from the hotel (departure) as well as transport from hotel to playing hall, else organizer covers the costs of taxi

Proposal ARB about Hotel:

* EVE-tournaments - for CA, DCA, PO: minimum 4* hotel, others 3* hotel

* single room for CA, DCA, PO,

* double room for Sector arbiters and Match-Arbiter, with possibility to get single room (arbiter pays the difference)

* meals to cover by organizer (for all, also for local arbiters)

Proposal ARB about payment:

* payment must be done within 10 working days after last round, providing the organizer all bank account details

* in exceptional situations FIDE can decide to ask organizer to pre-finance up to 100% of the flight costs.

* side events (example: blitz tournament in the evening) are not included and must be paid extra to the arbiters involved

* extra costs (example: using arbiters printer) must be reimbursed by organizer
